PRESS RELEASE

Good news: international tourists are welcome to visit the French part of the island!

Good news for visitors: the island of Saint Martin is ready to welcome you back!

The Light is now visible at the end of the tunnel ! The sun is shining bright, the sea is warm and the tourism sector is ready to promise you some exceptional experiences!

Come, enjoy, and discover all that we have to offer.

You will be hosted in completely safe conditions in the various accommodation on the French Side of Saint-Martin. They are ready and waiting for you – you have been missed!

A three-way agreement has been signed with the State, the Agence Régionale de Santé des Îles du Nord (the equivalent of CDC), and the President of the Club de Tourisme.

This agreement requires all tourists arriving from non European destinations* to **take an additional antigenic test if their PCR test exceeds 72 hours or if their antigen test exceeds 48 hours.**

This free additional test will be offered to all relevant international visitors.

Saint-Martin is ready to welcome international travelers in completely safe conditions and that is the number one priority.

Saint Martin is waiting for you, so go ahead and book now!!!
